

Ph.D. Studies in Berlin in the field of Catalysis

Berlin International Graduate School for Natural Sciences and Engineering

Would you like to...

- Earn your Ph.D. in three years from an excellent program?
- Improve your research skills while working with world-renowned researchers in the field of catalysis?
- Explore a different culture and learn a new language in one of the most attractive capitals in the world?

Then welcome to the BIG-NSE!

For more information, please visit www.big-nse.tu-berlin.de

A joint project of:

Max-Planck-Institut
für Kolloid- und Grenzflächenforschung

sponsored by the German Research Foundation (DFG)
